Press Shield Of Democracy, Institute Told

A free press is the only major agency which stands squarely between our present form of government and dictatorship, William Scripps Kellogg, former publisher of the Glendale News-Press and now a La Jolla resident, told the Newspaper institute yesterday.

Speaking on the subject, "Some Observations of the Fourth Estate," at morning and evening institute sessions in the Vocational school, Kellogg sketched newspaper history over the last 2000 years.

Taking as his definition of the newspaper one carved over the doorway of a great newspaper, he quoted:

"The newspaper is an institution developed by civilization to present the news of the day, to foster commerce and industry, to inform and lead public opinion and to furnish that check upon government which no constitution has ever been able to provide."

FREE PRESS IMPORTANT

California now has 681 newspapers, of which 138 are dailies, Kellogg said.

Speaking on the free press he said: "Our forefathers in founding this country thought a free press important enough to incorporate it along with free speech and freedom of worship in the bill of rights. Thomas Jefferson believed so thoroughly in the right of a free press that he went so far as to say, 'Were it left to me to decide whether we should have a government without newspapers or newspapers without government I should not hesitate a moment to prefer the latter.'"

But newspapers have a real job on their hands today in improving their public relations, the former publisher said.

"They have been so busy trying to sell things for somebody else through advertising columns and thereby earn a reasonable profit that they have forgotten about selling newspapers as an independent medium of general information," Kellogg declared.

VALUE EMPHASIZED

"Newspapers long have stressed the economic and social values of advertising, yet have done little or nothing to stress the economic and social values of the newspapers which make that advertising possible.

"Fortunately there seems to be a very definite trend on the part of many publishers to do something about the public relations job. But it can't be done by stating how grand, how virtuous and how powerful newspapers are. The newspaper, in order to justify its existence, must be sold on its own worth. There must be a logical, practical and truthful explanation of its real value in our present day society, and there is such a story to be told."

Georgia Rejects Pipe Line Bill

ATLANTA, March 19 (A.P.)—The Georgia senate late today killed legislation to permit construction of gasoline pipe lines—advocated by President Roosevelt as essential to national defense in a telegram to Gov. Eugene Talmadge.

The senate, its debate interrupted by the president's message, voted 27 to 21 against legislation that would have given private companies the right of eminent domain for pipe line construction if the president, the secretary of war or navy proclaimed the project vital to defense.

The senate also adopted a resolution expressing willingness to reconvene in special session sometime after adjournment Saturday night, to enact legislation permitting the federal government to construct lines in Georgia. This would deny the right to private concerns.

The resolution said the senate wanted to cooperate with the president fully in national defense, but did not want to give private corporations the right to traverse private and public property in laying the petroleum tubes.

Woman, 32, Attacked; Found Wandering Nude

Called to the southern entrance of Eleventh ave. canyon when several persons reported seeing a nude woman wandering, police early yesterday found Mrs. Ophelia Shields, 32, who said she had been beaten and attacked in a dark spot near Snyder Continuation High school.

When police arrived Mrs. Shields, who said she was the wife of a sailor and gave several addresses, was being cared for in an apartment house at 1344 Eleventh ave. Her clothes were found in a pile near the place she said she had been attacked.

Mrs. Shields said she had several beers at a restaurant near Tenth ave. and Broadway and was walking home. She said the assailant likely was a man who had spoken to her as she left the restaurant.

After receiving treatment at police emergency hospital for injuries to her face and mouth, Mrs. Shields was taken to county hospital.

Storm Toll $600,000 As State Roads Hit

SACRAMENTO, March 19 (A.P.)—T. H. Dennis, maintenance engineer in the state division of highways, today reported storm damage to California's highways in February alone totaled $600,000, of which about two-thirds occurred in the 13 southern counties.

Most severely struck was the Los Angeles district with approximately $200,000 damage to the highways in the area. San Diego's toll was $10,000.

BLACK AND BLUE POPULAR COLORS FOR SPRING WEAR

The military trend in styles spotlighted a fashion show which the Twelve-Ten club sponsored yesterday at a spring fashion luncheon in the clubrooms.

Mrs. Marie Droz, commentator, told the 500 women who attended that black and dark blue still were predominating shades for spring wear, although red and purple were the new spring colors.

A South American note has crept into sports wear, Mrs. Droz said, and gay colors are the trend in house coats.

The return of capes, with brass buttons and wing ornaments keynote the military trend which, Mrs. Droz said, appear on the fashion scene when war news holds the public interest.

Latest styles in street wear, afternoon garb, cocktail fashions, formal gowns and wedding dress also were demonstrated. The styles were modeled by Mmes. Marie Dearing, Doris Muehleisen, Doris Hermes, Mamie Luck, Peggy Pillster and Misses Mary Lou Crans and Barbara Dresser.
